Butler Breeder's Invitational

Registered Texas Longhorn Cattle

September 5, 2015

Dear Texas Longhorn Breeders,

Welcome to the 2015 Butler Breeder's Invitational. Each year, the Butler Breeder's Invitational is committed to offering not only the finest in straight Butler cattle, but the finest in Texas Longhorns as well. This commitment is shared by our consignors and we are proud to be associated with them. We encourage you to contact them if you desire additional information on any of the sale lots. As Butler Texas Longhorn breeders, our commitment is two-fold. To the cattle, our commitment is to preserve and promote them to the best of our ability. To the people, it is to treat everyone with respect and welcome you as a guest in our own home.

Once again, our sale offering includes something for everyone. You will find proven producers, extremely high quality young stock with unlimited potential, and bulls that can help take any program to the next level. Top breeders have long recognized that the best Texas Longhorns in the industry all have one thing in common: Butler Genetics. The cattle market is soaring to all-time highs and now is an excellent time to take advantage of this positive market trend as prices continue to climb even higher!

An added feature again this year will be Internet viewing for those unable to attend the sale. The sale will be webcast by LemleyAuctionServices.com. There will not be bidding on the webcast. All bidding must be done by using the sale day phone number. If you are interested in using this service, please call ahead for prior approval and more information.

We invite you to return with us to Lockhart for the great cattle and fun times the Butler Breeder's Invitational has come to represent. As always, for everyone associated with the Butler Breeder's Invitational, we thank you for your interest and your participation!

 Breeding Information: Exposed to RVR Silvio from 4/18/15 to 8/15/15.

COMMENTS: MS Tari's Coronita is exactly what we hoped for in crossing Wrangler Chex and Tari Butler RK5. Good color and wide horns with a stacked pedigree make her a Butler great. Once again, a good cross of VJ Tommie and Coach produces a standout.

DALGOODS FANCY TEMPTRESS

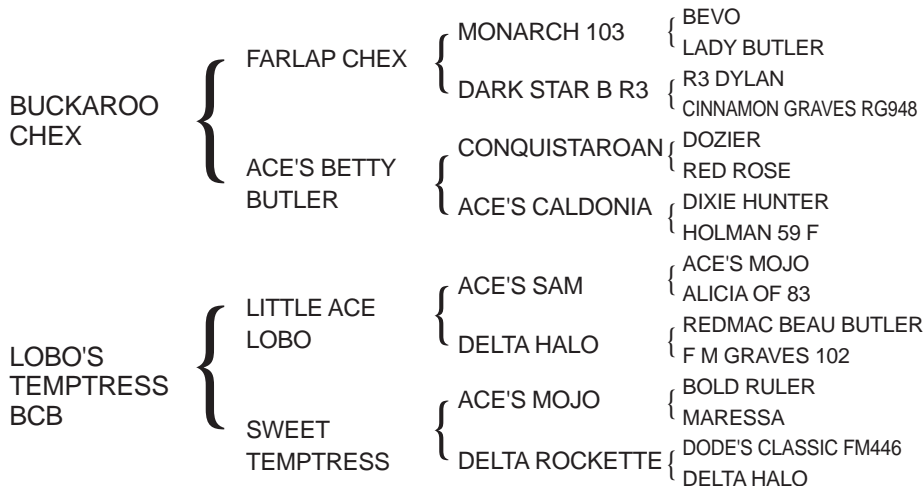

Consignor: Dalgood Longhorns - Malcolm & Connie Goodman

PH No. 947 TLBAA No. C269795 Born: 12/10/09
 Color: White with few red spots
 Bangs Vaccinated (OCV): Y
 Breeding Information: Exposed to Dalgood's Candy Man from 12/13/14 to 5/2/15. Exposed to Dalgood's Jacob from 5/3/15 to 8/15/15.

COMMENTS: Great young cow out of Lobo's Temptress out of Sweet Temptress, one of the high selling embryo calves out of Delta Rockette. Sire is Buckaroo Chex, our patchy brindle bull who throws a lot of multi-colored calves. Look closely because Fancy Temptress is turning into a tri-color roan with a blue tint and very nice horn. Exposed to Candy Man for OT Droopy's Big Base genetics and then to Jacob for double breeding of Delta Rockette.

COMMENTS: It is hard not to get excited when you have the opportunity to bring in Dark Star Chex over a granddaughter of Rose Red. As the icing on the cake, you also bring in Ace's Dayton Desperado. This female is perfect for those of you looking to maintain your straight Butler program or for the individual looking to blend her with the other six families. So much potential. Bred to Bob Chex. Consignor: Dalgood Longhorns - Malcolm & Connie Goodman

PH No. 824

TLBAA No. C260047

Born: 4/14/08

Color: Red with brindle head

Bangs Vaccinated (OCV): Y

Breeding Information: Exposed to Buckaroo Chex from 2/21/15 to 5/2/15.

Exposed to Dalgood's Jacob from 5/3/15 to 8/15/15.

COMMENTS: Dam is Dalgood's Sparkles, a flashy brindle Dylan daughter who we purchased from Robert and Kim Richey at the 2002 BBI as a calf at side. Richeys then repurchased Sparkles from us in the 2011 BBI. This wonderful family line goes back to DeWitt Meshell's MF Little Sparky known for size, productivity, and milking. Exposed to our patchy brindle bulls Buckaroo and then Jacob for a likely tri-colored calf to add more flash and color.

Pure Butler Texas Longhorn

A pure Butler Texas Longhorn is a longhorn whose genetics trace back to only cattle originating in the herd of Mr. Milby Butler. This is a very simple statement to make but determining which cattle do indeed trace fully to the Butler herd has been far more complicated.

There are seven accepted subfamilies within the Butler bloodline. They are the herds of the Partlow family, F.M. Blackie Graves, the Meshell family, Ruel Sanders, Luman Holman, Forrest Lepper, and Virgil Shinn. Over the years all of these herds, except those of Lepper and Shinn, contained longhorns of non-Butler breeding in addition to their straight Butler animals. There are also Butler cattle which do not fall into these subfamilies. These would be found in herds such as J.W. Isaacs, the Wright family, and Pauline Russell. There also existed a group of animals which lived within these subfamilies and throughout the breed that were claimed to be straight Butler but which, as a result of paperwork mistakes, carried pedigrees that did not reflect their true genetic heritage. To determine which cattle did or did not trace fully to the original Butler herd, extensive and exhaustive research was done. Countless numbers of conversations and interviews with scores of people were conducted. Thousands of photos were viewed or taken. Pedigrees, personal notes, and records were examined. We saw everyone and everything that had a connection to Butler cattle. We heard facts, legends, lore, lies, theories, rumors, secrets,

innuendo, and accusations. We have the testimony of the men that registered these cattle. It was concluded that there were in fact quite a few that were unquestionably straight Butler, many of which were some of Milby's very best. If they were truly 100% Butler, shouldn't they too be included in the bloodline? We said yes. In the end, one factor alone guaranteed acceptance as straight Butler: the brands. Unlike paperwork, which becomes separated from the animal, brands stay with the animal for life. And as any good cowman knows, brands tell a cow's life story. If the brands identified it as Butler, then it was Butler. A Butler brand verified its true ancestry and simply reflected mistakes made at the time of registration, usually when the cattle were already mature. Anyone understanding the pitfalls and limitations of beginning a registry for a breed as diverse and old as the Texas longhorn can see how a breed that historically had survived for so long on their own, would have a family tree that would be hard to recreate and document. Many cattle regrettably were rejected because they did not have the proper brands to serve as irrefutable proof. What remains is a group of cattle which we can stand behind and know in our hearts are among the purest Butler Longhorns available.

Some would ask who are we to make such decisions and what gives us the right to do so. No one gave us the right; we stepped up and seized it. We are the Butler Breeders. We have always been

Butler breeders. We bred and promoted straight Butler cattle while Texas Longhorn industry psychics and consultants predicted that pure Butler cattle were a fad that would not last; that was in the 1980's. We're still raising pure Butler cattle. We did the research and we did our homework. Your sale hosts alone have nearly 65+ years of commitment to this bloodline. Along with the help of other Butler breeders respected for their dedication to and knowledge of this bloodline, the Butler Breeder's Invitational screening committee pledges to offer only the best representatives possible. This includes the rejection of animals that do not conform to the genetic and phenotypic criteria required. Simply having papers that reflect a straight Butler pedigree does not guarantee acceptance to this sale. Unfortunately, breeders that disagree with our standards may suggest impure motivation on our part. But for us, this is about the cattle, not about people. Our goal is to raise the finest, **100% genetically pure** Butler Texas Longhorns possible so as to preserve this magnificent bloodline for the future. Butler cattle have been our love and our lives. We hope Mr. Butler would be proud.
