# Butler Breeder's Invitational

## Registered Texas Longhorn Cattle

August 30, 2025

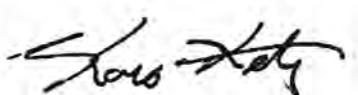

Dear Texas Longhorn Breeders,

Welcome to the 2025 Butler Breeder's Invitational, and our 28th Annual Sale. Each year, the Butler Breeder's Invitational is committed to offering not only the finest in straight Butler cattle, but the finest in Texas Longhorns as well. This commitment is shared by our consignors, and we are proud to be associated with them. We encourage you to contact them if you desire additional information on any of the sale lots. As Butler Texas Longhorn breeders, our commitment is two-fold. To the cattle, our commitment is to preserve and promote them to the best of our ability. To the people, it is to treat everyone with respect and welcome you as a guest in our own home.

Our consignors stepped up again, offering something for everyone. Whether you are searching for a young heifer with high quality genetics and unlimited potential, to a mature cow with proven production. There are also a couple young herd sire prospects ready to make an impact on your herd. Whether your interest is in the history of the bloodline and the continuation of the last viable pure family of Texas Longhorns that still survives or adding Butler genetics to blend programs as the essential key ingredient for superior results, top breeders have long recognized that the best Texas Longhorns in the industry all have one thing in common: **Butler Genetics.**

Internet bidding will be available for those unable to attend the sale. The sale will be webcast by [www.HiredHandLiveBidding.com](http://www.HiredHandLiveBidding.com). There will be bidding on the webcast. If you are interested in using this service, please visit the Hired Hand Live Bidding website for more information.

We invite you to return with us to Lockhart for the great cattle and fun times the Butler Breeder's Invitational has come to represent. As always, for everyone associated with the Butler Breeder's Invitational, we thank you for your interest and your participation!

Breeding Information: Heifer calf at side born 7/14/25 by Spanish Santa Fe MC 85. Not Exposed

COMMENTS: Nora is hard to part with. I only used WA Iodine's Condor for two seasons. He has produced several outstanding females. Also, Nora is the second VNR Miss Sarah C3 daughter, and I swore I would never sell her. VNR Miss Sarah C3 is my top producer. She stays fat year round and without exception, raises my fattest calf. Sarah's eldest daughter, Sia C3, is one of the most beautiful contemporary Butler cows. Sia has produced the exceptional young bull High Frequency FC. She is also dam to two up and coming herd bulls and a couple outstanding heifers.

COMMENTS: Great young daughter of FA Super Star and a great cow from the Richey's program, Carmon Isabella BR3, who we purchased at this sale a few years ago. This heifer combines some of the Richey's best foundation genetics with great genetics from the Meshell and Webb herds. Belle's color is somewhat unusual in that it changes with the seasons. COMMENTS: Only a small percentage of bull calves have what it takes to be a herd sire. We felt this young guy has the potential, ever since he was a calf. We not only judge potential herd sires on their overall quality, but also on the quality of the females in their pedigree. Super Bold is out of an outstanding dam, TC Bold Queenie who is a daughter of Rising Star TH. Her dam, TC Miss Bold Redmac B is a big bodied daughter of FC Bold Asset. In addition to these great females his pedigree also goes back to Evening Star B R3, Dark Star B R3, Delta Rockette, Rockett's Mijha, and MF TNT. Over the years we have only retained a small number of bull prospects and we are pleased to offer this one to you.

PH No. 216 TLBAA No. C353203 Born: 6/8/12

Color: White body with brindle specks over body

Bangs Vaccinated (OCV): Y

Breeding Information: Exposed to Galaxy FC from 10/12/24 to 3/12/25

COMMENTS: This fancy tri-colored beauty lives up to her name and comes from the heart of our Butler herd. She was bred and raised at Falls Creek Longhorns. We also bred and raised her sire. Her dam was one of our foundation Butler females who had a mature measurement of 80" and was the dam of FC Bold Asset. Fancy has been part of our herd all of her life. We have retained several daughters and a son, FC Black Powder. Her genetics will have a long lasting impact on our herd. We truly believe you could build a program around this cow and her family lines, we have. She is bred for a fall calf by Galaxy FC, who is a black and white speckled son of FA Super Star and Sia C3. Galaxy is a maternal brother to High Frequency FC.

Exposed to Galaxy FC from 6/1/25 to 8/15/25

COMMENTS: This is a hard one to let go of but we wanted to bring one of the best we have to the Butler Sale. Ashley Rose is a daughter of the great RVR Miss Scarlett Rose, who is an embryo transfer daughter of the legendary Little Ace Swamp Guinea. The Swamp Guinea cow is a daughter of the great Delta Rockette. They were both high-sellers at this sale. Ashley carried on the family tradition of being a sale topper when we purchased her as a heifer at this sale. She has not disappointed us. She has been a consistent producer for us. We are retaining her 2024 FA Super Star heifer as a replacement. She sells with a March 25, 2025 bull calf at side by FA Super Star and is exposed back to Galaxy FC, a black and white speckled son of FA Super Star and Sia C3 for a possible 3 in 1 package.

Breeding Information: Bull calf at side born 1/16/25 by SH Buffalo Kelly 8/9. Exposed to SH Buffalo Kelly 8/9 from 1/16/25 to 8/15/25

COMMENTS: SH Freeway Abigail is the daughter of one of my favorite cows, MS Abigail, a RVR Silvio daughter. SH Freeway Abigail's sire, SH Freeway Santana has thrown some wonderful calves, and I didn't realize what a good producer he was. He was the son of BL Freeway Chex, a black and white Farlap Chex son. Her bull calf at side is NOT straight Butler but is by a very nice near black and white blend bull named SH Buffalo Kelly going back to LLL Lucky and ZD Kelly. We kept her first calf who is a heifer and I'm very happy with her. I love SH Freeway Abigail's very twisty horns and quiet disposition. Take a look at her in person and I think you will like what you see.

Breeding Information: Heifer calf at side born 4/14/25 by SH Buffalo Kelly 8/9. Exposed to SH Buffalo Kelly 8/9 from 4/14/25 to 8/15/25

COMMENTS: This one is a producer! Her first calf was a bull calf that sold last week as a registered herd sire and as soon as they saw him, they wanted him. Her next two (one who is with her in this sale) are very feminine and pretty heifer calves. This calf is not straight Butler since I didn't have a Butler to breed her to, but the daddy of this calf is a very nice near black and white bull who is throwing great calves and has a quiet disposition. I think the heifer's daddy is doing a good job of production himself. She has a lot of horn, is large bodied, produces and is colorful. That's pretty much what we all look for in a Registered

Texas Longhorn. Take a look at her in person please.

Breeding Information: Exposed to Dalgood's Rocky II from 12/1/24 to 8/1/25

COMMENTS: This is the plain white calf on the beautiful red cow we bought at the 2019 BBI from the Rosenbergers, see reference photo. Both have been great in our herd. Miss Belinda is now 6 years old and stands out with her gorgeous roan coloration. Her sire is RVR Jackson. Bred to Rocky II for what should be a spectacular calf.

COMMENTS: Another good SH Freeway Santana 79/4 daughter going back to Dalgood's Rocket Man and Jackie Lynn 861 on bottom. She's dark red with snow white horns and black tips, black nose and black feet and shines like a light in the summer... She's had two heifers, and a bull and this heifer's daddy is a son of LL Crown Moonshine who measures over 94" TTT now although he's not Butler, so the calf is a blend. COMMENTS: Flashy tri-colored 5-year old who demonstrates what we have done by crossing Big Base genetics for horn with Delta Rockette genetics for color. Interestingly there's a ton of old genetics from Conquistador included because of the Big Base flush with Conquistador. Very gentle cow with huge potential. Note her thick long black-tipped horn. Bangs Vaccinated (OCV): Y

Breeding Information: Bull calf at side born 3/18/25 by Spanish Santa Fe MC 85. Exposed to WA Griffon from 5/3/25 to 8/20/25

COMMENTS: A beautiful Triple R, Robert and Kim Richey bred cow. Jason and I both fell for this cow when she was just a calf at side at the 2020 sale. Vivianna has it all, smooth deep body, exceptional udder and milking ability, great horn, color and femininity. Her chunky bull calf at side was born 3/18/25 sired by Spanish Santa Fe MC 85. If it weren't for a change in circumstances, this cow would not be for sale. She is just getting in her stride and has great things to come.

Color: Red face with white diamond patch, white line back, red sides, front lower legs red

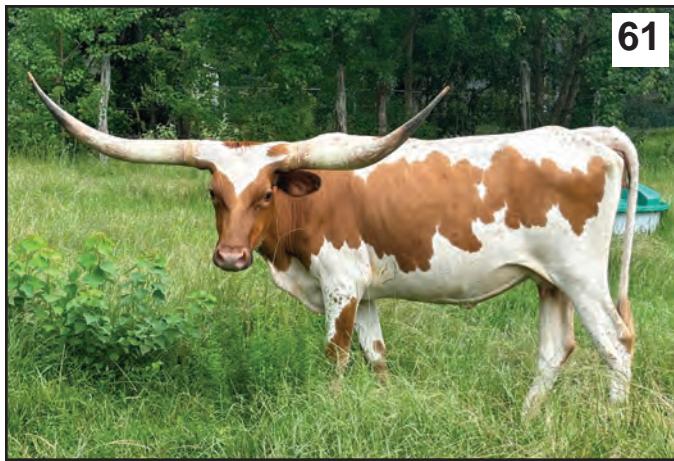

Bangs Vaccinated (OCV): Y

Breeding Information: Exposed to C4 Duke from 1/1/25 to 8/24/25

COMMENTS: This one hurts and I'm really not sure I should be doing this. They say "bring a good one," well we are bringing one that's way above that! C4 Miranda is an unbelievable young cow. She's dog gentle, will eat out of your hand. She has some of the great ones in her bloodline. BPT Ebeneezer, Concho, Handsome Jack, Wrangler Chex, Guinnevere. Her dam Paisley Faye has a ton of twisty horn and is pushing the upper 70's close to 80". C4 Miranda is a wonderful momma. Great milker and takes great care of her baby. She has heavy base and mass all the way out and a lot of total horn. She's only 4 1/2 and her horns are steady, heading out and up. She is exposed to our Senior Herd Sire, C4 Duke. He has become, in our opinion, one of the best Butler bulls in the breed today. A son of Kulik and BL Little Rosie. If you are really looking to have a cow in your pasture that will make people stop and look, here is your chance to add a cow that can do just that.

# Pure Butler Texas Longhorn

A pure Butler Texas Longhorn is a longhorn whose genetics trace back to only cattle originating in the herd of Mr. Milby Butler. This is a very simple statement to make but determining which cattle do indeed trace fully to the Butler herd has been far more complicated.

There are seven accepted subfamilies within the Butler bloodline. They are the herds of the Partlow family, F.M. Blackie Graves, the Meshell family, Ruel Sanders, Luman Holman, Forrest Lepper, and Virgil Shinn. Over the years all of these herds, except those of Lepper and Shinn, contained longhorns of non-Butler breeding in addition to their straight Butler animals. There are also Butler cattle which do not fall into these subfamilies. These would be found in herds such as J.W. Isaacs, the Wright family, and Pauline Russell. There also existed a group of animals which lived within these subfamilies and throughout the breed that were claimed to be straight Butler but which, as a result of paperwork mistakes, carried pedigrees that did not reflect their true genetic heritage. To determine which cattle did or did not trace fully to the original Butler herd, extensive and exhaustive research was done. Countless numbers of conversations and interviews with scores of people were conducted. Thousands of photos were viewed or taken. Pedigrees, personal notes, and records were examined. We saw everyone and everything that had a connection to Butler cattle. We heard facts, legends, lore,

lies, theories, rumors, secrets, innuendo, and accusations. We have the testimony of the men that registered these cattle. It was concluded that there were in fact quite a few that were unquestionably straight Butler, many of which were some of Milby's very best. If they were truly 100% Butler, shouldn't they too be included in the bloodline? We said yes. In the end, one factor alone guaranteed acceptance as straight Butler: the brands. Unlike paperwork, which becomes separated from the animal, brands stay with the animal for life. And as any good cowman knows, brands tell a cow's life story. If the brands identified it as Butler, then it was Butler. A Butler brand verified its true ancestry and simply reflected mistakes made at the time of registration, usually when the cattle were already mature. Anyone understanding the pitfalls and limitations of beginning a registry for a breed as diverse and old as the Texas longhorn can see how a breed that historically had survived for so long on their own, would have a family tree that would be hard to recreate and document. Many cattle regrettably were rejected because they did not have the proper brands to serve as irrefutable proof. What remains is a group of cattle which we can stand behind and know in our hearts are among the purest Butler Longhorns available.

Some would ask who are we to make such decisions and what gives us the right to do so. No one gave us the right; we stepped up and seized it. We are the Butler Breeders. We have always been

Butler breeders. We bred and promoted straight Butler cattle while Texas Longhorn industry psychics and consultants predicted that pure Butler cattle were a fad that would not last; that was in the 1980's. We're still raising pure Butler cattle. We did the research and we did our homework. Your sale hosts alone have over 75 years of commitment to this bloodline. Along with the help of other Butler breeders respected for their dedication to and knowledge of this bloodline, the Butler Breeder's Invitational screening committee pledges to offer only the best representatives possible. This includes the rejection of animals that do not conform to the genetic and phenotypic criteria required. Simply having papers that reflect a straight Butler pedigree does not guarantee acceptance to this sale. Unfortunately, breeders that disagree with our standards may suggest impure motivation on our part. But for us, this is about the cattle, not about people. Our goal is to raise the finest, 100% genetically pure Butler Texas Longhorns possible so as to preserve this magnificent bloodline for the future. Butler cattle have been our love and our lives. We hope Mr. Butler would be proud.
