Butler Breeder's Invitational
Registered Texas Longhorn Cattle

Dear Texas Longhorn Breeders,

Welcome to the 2026 Butler Breeder's Invitational, and our 29th Annual Sale. Each year, the Butler Breeder's Invitational is committed to offering not only the finest in straight Butler cattle, but the finest in Texas Longhorns as well. This commitment is shared by our consignors, and we are proud to be associated with them. We encourage you to contact them if you desire additional information on any of the sale lots. As Butler Texas Longhorn breeders, our commitment is two-fold. To the cattle, our commitment is to preserve and promote them to the best of our ability. To the people, it is to treat everyone with respect and welcome you as a guest in our own home.

Our consignors stepped up again, offering something for everyone. Whether you are searching for a young heifer with high quality genetics and unlimited potential, to a mature cow with proven production. There are also a couple of young herd sire prospects ready to make an impact on your herd. Whether your interest is in the history of the bloodline and the continuation of the last viable pure family of Texas Longhorns that still survives or adding Butler genetics to blend programs as the essential key ingredient for superior results, top breeders have long recognized that the best Texas Longhorns in the industry all have one thing in common: **Butler Genetics.**

Internet bidding will be available for those unable to attend the sale. The sale will be webcast by www.HiredHandLiveBidding.com. There will be bidding on the webcast. If you are interested in using this service, please visit the Hired Hand Live Bidding website for more information.

We invite you to return with us to Lockhart for the great cattle and fun times the Butler Breeder's Invitational has come to represent. As always, for everyone associated with the Butler Breeder's Invitational, we thank you for your interest and your participation!

Her dam is JMR Magic Star with over 85" of horn, yet Maxine has a very unusual horn set. Out, up and straight back. We really wanted to keep her just to see what she becomes. Color: Red with white hips
Bangs Vaccinated (OCV): Y
Breeding Information: Exposed to Arlo R3 from 3/21/26 to 8/1/26

COMMENTS: Eliana is a calm easy-going medium-framed cow with an explosive pedigree. Her granddams are two of the most productive females we have ever owned. Her grandsires and sire are no slouches either. Pippa, her dam, went through the sale in 2024. We try to bring a good one to the Butler sale, and we think she fits the bill. PH No. 15/5 TLBAA No. C304887 Born: 10/2/15
Color: White body with red specks on face and neck
Bangs Vaccinated (OCV): Y
Breeding Information: Heifer calf at side born 6/12/26 by Radio R3.
Exposed to Radio R3 from 6/12/26 to 8/15/26

COMMENTS: Carmon Alicia has been a fantastic producer for us, and a ranch favorite. We have two Radio R3 daughters that we are retaining in our herd, that are both at the top of their weaning group. We always loved her distinct heavy horns, her roan color, and fantastic pedigree. Her sire's dam is a full sister to the great Guinnevere BR3. Alicia's dam is a beautiful Trinity daughter, that the Tidwells own, and is a daughter of the great Carmon Maya. Alicia has worked with whichever bull we have put her with, and she has a heifer calf at side by Radio R3.

SOLD FOR: $1,900
BUYER: Michael & Jackie McLeod
Breeding Information: Exposed to 5T's Midnight Voodoo from 11/15/25 to 8/1/26

COMMENTS: Unusual and spectacular roan color, almost a grulla shade of variable highlights from gray to brown and blue. Connie and I don't recall ever seeing this coloration in a longhorn. Full specks and freckles from face to rump to tail. And horn and nose and ear color to match. She is a standout cow with great conformation and long thick horn. Genetics explain it - Delta Rockette, Buckaroo Chex, and Droopy's Big Base. See reference photo of Little Ace Primrose (out of Delta Rockette and Ace's Mojo) who we bought from Kaso Kety at the 2003 BBI and is the namesake and granddam of this lot. Prim Rosie Girl is exposed to our young bull 5T's Midnight Voodoo, who goes back to Dalgood's Lee Willy and Dalgood's Pumpkin for more powerful genetics, horn, and color. Very special opportunity from the heart of our herd!!

Sister Magnolia C3

SOLD FOR: $5,200
BUYER: Curtis Brown

She is the type of cow we are striving to produce. McInnis Longhorns is using her full brother as one of their herd sires and he is a Butler Futurity winner. Will be heavy bred or have a calf at side by Range Boss MC 026, our brindle herd sire we own with the McLeods.

FC Rising Magic

SOLD FOR: $3,000
BUYER: Kasar & Lisa Kety

Consignor: Falls Creek Longhorns - Stan & Sandi Tidwell

PH No. 127 TLBAA No. CI360068 Born: 4/1/21
Color: White with black ears, legs and feet with brown black roan over body
Bangs Vaccinated (OCV): Y
Breeding Information: Exposed to Galaxy FC from 6/5/26 to 8/15/26

COMMENTS: This beautiful roan female is not only spectacular to look at, she also has a stellar pedigree. Starting with her dam, the gorgeous and incredible producing, Sia C3. We have never offered any daughters of Sia C3 to the public before. The Sia genetics are playing a major role in our Butler herd with her son, Galaxy FC's first calf crop. The results are everything we had hoped for. We are only offering Rising Magic because we have two half-sisters that we are retaining, plus a beautiful specked-up daughter. In addition to the great genetics of Sia C3, you have the foundation genetics of TNT Magic Man on the top. He is a son of the great Ace's Black Magic Man and out of a clone of MF TNT, giving you some great out cross genetics. Rising Magic is exposed to Galaxy FC, who is producing fantastic calves for us.

COMMENTS: Joanie is a really nice four-year-old. Size, horn, color, good conformation, and has produced two good calves to date. Breeding Information: Heifer calf at side born 3/15/26 by TC Lex. Exposed to TC Lex from 3/18/26 to 8/1/26

COMMENTS: M'Lu is a calf raising factory. Her last year's calf was the biggest in her peer group when we weaned, and this year's looks to be no different. Both year's calves were born at the beginning of the calving season, which scores points in our herd. She does not have the biggest horn, but we bred her for horn shape and twist. There is a lot of that in her pedigree and her calf's pedigree. We hope she passes that trait along to her future offspring. Exposed back to TC Lex for a possible 3 in 1.

Pure Butler Texas Longhorn

A pure Butler Texas Longhorn is a longhorn whose genetics trace back to only cattle originating in the herd of Mr. Milby Butler. This is a very simple statement to make but determining which cattle do indeed trace fully to the Butler herd has been far more complicated.

There are seven accepted subfamilies within the Butler bloodline. They are the herds of the Partlow family, F.M. Blackie Graves, the Meshell family, Ruel Sanders, Luman Holman, Forrest Lepper, and Virgil Shinn. Over the years all of these herds, except those of Lepper and Shinn, contained longhorns of non-Butler breeding in addition to their straight Butler animals. There are also Butler cattle which do not fall into these subfamilies. These would be found in herds such as J.W. Isaacs, the Wright family, and Pauline Russell. There also existed a group of animals which lived within these subfamilies and throughout the breed that were claimed to be straight Butler but which, as a result of paperwork mistakes, carried pedigrees that did not reflect their true genetic heritage. To determine which cattle did or did not trace fully to the original Butler herd, extensive and exhaustive research was done. Countless numbers of conversations and interviews with scores of people were conducted. Thousands of photos were viewed or taken. Pedigrees, personal notes, and records were examined.We saw everyone and everything that had a connection to Butler cattle. We heard facts, legends, lore, lies, theories, rumors, secrets, innuendo, and accusations. We have the testimony of the men that registered these cattle. It was concluded that there were in fact quite a few that were unquestionably straight Butler, many of which were some of Milby's very best. If they were truly 100% Butler, shouldn't they too be included in the bloodline? We said yes. In the end, one factor alone guaranteed acceptance as straight Butler: the brands. Unlike paperwork, which becomes separated from the animal, brands stay with the animal for life. And as any good cowman knows, brands tell a cow's life story. If the brands identified it as Butler, then it was Butler. A Butler brand verified its true ancestry and simply reflected mistakes made at the time of registration, usually when the cattle were already mature. Anyone understanding the pitfalls and limitations of beginning a registry for a breed as diverse and old as the Texas longhorn can see how a breed that historically had survived for so long on their own, would have a family tree that would be hard to recreate and document. Many cattle regrettably were rejected because they did not have the proper brands to serve as irrefutable proof. What remains is a group of cattle which we can stand behind and know in our hearts are among the purest Butler Longhorns available.

Some would ask who are we to make such decisions and what gives us the right to do so. No one gave us the right; we stepped up and seized it. We are the Butler Breeders. We have always been Butler breeders. We bred and promoted straight Butler cattle while Texas Longhorn industry psychics and consultants predicted that pure Butler cattle were a fad that would not last; that was in the 1980's. We're still raising pure Butler cattle. We did the research and we did our homework. Your sale hosts alone have over 75 years of commitment to this bloodline. Along with the help of other Butler breeders respected for their dedication to and knowledge of this bloodline, the Butler Breeder's Invitational screening committee pledges to offer only the best representatives possible. This includes the rejection of animals that do not conform to the genetic and phenotypic criteria required. Simply having papers that reflect a straight Butler pedigree does not guarantee acceptance to this sale. Unfortunately, breeders that disagree with our standards may suggest impure motivation on our part. But for us, this is about the cattle, not about people. Our goal is to raise the finest, 100% genetically pure Butler Texas Longhorns possible so as to preserve this magnificent bloodline for the future. Butler cattle have been our love and our lives. We hope Mr. Butler would be proud.
